Amelia Chen

amelia.chen@example.com | (415) 555-0134

Objective

Data Scientist with 3+ years turning SQL and Python analysis into decisions, using Pandas and Scikit-learn to model and explain customer behavior.

Professional Experience:

Data Scientist, Pivotal Works
Jul 2024 - Present
- Built dashboards summarizing key metrics for the leadership team.
- Designed controlled experiments to compare product variants and measured the impact on conversion before any change shipped broadly.
- Used Pandas and NumPy to clean and transform multi-source data before modeling.

Junior Data Scientist, Quantum Byte
Mar 2022 - Jul 2024
- Built dashboards summarizing key metrics for the leadership team.
- Used Pandas and NumPy to clean and transform multi-source data before modeling.
- Built Scikit-learn models to predict customer churn, presenting findings with clear statistics to non-technical stakeholders.

Education

B.S. in Statistics, Riverstone College

Core Competencies

Python, SQL, Pandas, NumPy, Scikit-learn, Statistics
