Scarlett Young

scarlett.young@example.com | (312) 555-0101

Profile

ML Engineer focused on building and deploying machine learning models in Python, with hands-on experience across the full model lifecycle.

Professional Experience:

Senior ML Engineer, Skyline Mobility
09/2023 - Present
- Tracked experiments and model versions with MLflow across a team of four engineers.
- Deployed TensorFlow models to production behind a REST API with automated retraining on a schedule.
- Built systems that let machines interpret and classify photographs for a quality-inspection product.

ML Engineer, Hollowbrook Energy
04/2017 - 09/2023
- Deployed TensorFlow models to production behind a REST API with automated retraining on a schedule.
- Used Scikit-learn to prototype and compare classical ML baselines before committing to a deep learning approach.
- Partnered with product managers to translate business goals into measurable model objectives.

Education

M.S. in Machine Learning, Lakeview College

Technical Skills: Python, Machine Learning, Deep Learning, TensorFlow, PyTorch, Scikit-learn

Certifications

- TensorFlow Developer Certificate
- AWS Certified Machine Learning - Specialty
